

Ivanhoe Mines files final prospectus for rights offering

VANCOUVER, CANADA – Ivanhoe Mines announced today that the company has filed the final prospectus outlining the details of a rights offering in which all existing shareholders, subject to applicable law, may participate on an equal, proportional basis in purchasing additional common shares. The offering is expected to raise approximately US\$1.8 billion in gross proceeds.

The rights offering is part of the comprehensive financing plan to continue the development of the Oyu Tolgoi Project, and was the subject of a memorandum of agreement with majority shareholder Rio Tinto on April 18, 2012. Certain terms of that agreement were amended on May 23, 2012.

Terms of the rights offering have been approved by the Ivanhoe Mines Board of Directors. The final prospectus has been filed with securities regulators in Canada and the United States. The rights have been admitted for trading by the Toronto Stock Exchange (TSX), the New York Stock Exchange (NYSE) and the NASDAQ Stock Market, which also will list the shares issued upon the exercise of the rights.

Rio Tinto has committed to take up its full basic subscription privilege under the rights offering with respect to its 51% shareholding in Ivanhoe, subject to certain conditions. Rio Tinto will also provide a standby commitment for the full amount of the US\$1.8 billion rights offering, subject to certain conditions including the price of Ivanhoe's common shares on the NYSE not falling below the subscription price at any time on or after the fifth business day before the expiry of the rights. Under the standby commitment, Rio Tinto is required to acquire any Ivanhoe common shares not taken up under the rights offering.

Consistent with international practice in rights offerings, each new common share of Ivanhoe Mines available for purchase by rights holders will be offered at a discount to the company's current market price. Subject to applicable law, all Ivanhoe Mines shareholders will have the choice of deciding whether to participate and, by doing so, to maintain their existing levels of ownership. It means, for example, that an individual shareholder with a one per cent stake in Ivanhoe will be issued rights to buy a maximum number of new shares that would maintain that shareholder's stake at one per cent following completion of the offering.

Key terms contained in the final prospectus for the rights offering include:

- Each Ivanhoe Mines shareholder will receive one transferable right for each share of common stock owned as of June 19, 2012, the record date for the rights offering.
- Every 20 rights will entitle the holder to purchase seven common shares of Ivanhoe Mines.
- Each holder may choose a subscription price of either US\$7.00 per share or CDN\$7.17 per share. The US and Canadian subscription prices represent a discount of approximately 32% to the closing prices of US\$10.31 on the NYSE and CDN\$10.62 on the TSX on June 7, 2012.
- Approximately 260 million common shares are expected to be issued under the rights offering, which would represent approximately 35% of Ivanhoe's current outstanding shares.
- A rights-offering prospectus and rights certificate will be mailed to each shareholder of record on

June 27, 2012, subject to applicable law.

- The rights offering will be open for exercise for 21 days from the date of mailing to shareholders and will expire at 5:00 p.m. Eastern Standard Time (EST) on July 19, 2012.
- Shareholders who do not wish to exercise their rights to buy new common shares under the offering will have the option of selling the rights that they receive from Ivanhoe Mines through the TSX, the NYSE or NASDAQ.
- Trading of the rights will begin on the TSX on June 14, 2012 and stop at noon (EST) on July 19, 2012. On the NYSE and NASDAQ, trading of the rights will begin June 14, 2012 and stop at the close of trading on July 18, 2012. The rights will be listed for trading on the TSX under the symbol IVN.RT. The rights will be admitted for trading on the NYSE and NASDAQ under the symbols IVN.WIRT and IVN.V, respectively, until regular way trading on the NYSE and NASDAQ begins. Once regular way trading starts, the rights will trade on the NYSE and NASDAQ under the symbols IVN.RT and IVN.R, respectively.
- Shareholders who do not exercise all of their rights will have their present ownership interests in Ivanhoe Mines reduced, as a percentage of the total outstanding common shares, as a result of the rights offering.

This news release does not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.
