Ivanhoe Mines announces successful completion of rights offering

Preliminary results indicate approximately 99% of available rights were exercised, generating approximately US\$1.18 billion in gross proceeds for the company

TORONTO, CANADA – Ivanhoe Mines announced today that its strategic rights offering expired on January 26, 2011, as scheduled. Based on preliminary results that are subject to confirmation of amounts that will be received from brokers using guaranteed delivery procedures, Ivanhoe estimates it will receive gross proceeds of approximately US\$1.18 billion from the rights offering to help finance construction of the Oyu Tolgoi copper-gold project in Mongolia.

Also based on preliminary results, Ivanhoe expects to issue a total of approximately 85 million new common shares through the rights offering, which would represent approximately 99% of the maximum number of common shares available under the rights offering.

Robert Friedland and Rio Tinto, Ivanhoe Mines' two largest shareholders, both exercised all of their respective rights that were issued to them in the rights offering. Mr. Friedland also purchased an additional 1.5 million rights on the open market and exercised them to acquire additional common shares. Based on the preliminary results, Mr. Friedland's ownership stake in Ivanhoe Mines now is 15.5%; Rio Tinto has maintained its current ownership at 40.3%.

Ivanhoe expects that the rights offering will close on February 2, 2011, to accommodate those who exercised rights using guaranteed delivery procedures. Ivanhoe intends to mail new common shares acquired through the rights offering to registered subscribers on or promptly after the scheduled closing of the offering.

The Board of Directors of Ivanhoe Mines extends its appreciation to all shareholders who participated in, and contributed to, the success of the rights offering.

Citi was the lead dealer manager for the rights offering. BMO Capital Markets and CIBC were co-dealer managers.
